Defendant. )

This morning, I denied defendant's motion for summary judgment without prejudice in light of the upcoming mediation. However, the parties filed (presumably before seeing that Order) a motion for an extension of the mediation deadlines because of the pending motion. Now that the summary judgment motion has been denied without prejudice, this motion is moot. I suspect, however, that the parties may still need additional time to conduct their mediation since they should have already booked a mediator for a December 31, 2014, completion deadline. Therefore, on the Court's own motion, I will extend the mediation completion deadline to January 30, 2015.

**IT IS HEREBY ORDERED** that the joint motion for extension of ADR deadlines [#22] is denied as moot.

  
 RODNEY W. SIPPL  
 UNITED STATES DISTRICT JUDGE
